Hi Juan - talk about delayed response but with the holidays/use or lose and then snow, snow and more snow I didn't answer this.

On Cabo Rojo I asked Denise to get this started as she was familiar with the site from doing the assessment. That said, there may be other opportunities to help out CEPD in the future (and I won't ask why you're volunteering!!). Of course, you may be down in DC on a detail but we'll see what's what when the situation arises.

Enjoy your holiday,

Angela

▼ Juan Davila---12/10/2010 11:54:28 AM---That was a great meeting/breakfast. just as a follow up, you mentioned that the branch will be helpi

That was a great meeting/breakfast, just as a follow up, you mentioned that the branch will be helping with Cabo Rojo. I would like to volunteer for helping CEPD (dont ask why), second, it is probably a good idea if we start to get the SAMs involved with site specific activities if possible (I am sure you have thought about this). Let me know if Cabo Rojo is feasible.
